SUMMARY

Full Stack Engineer with 3+ years of experience developing and deploying scalable web applications with 100% success rate that drive business results.

EDUCATION

Bachelor of Engineering - Computer Science, MVJ College of Engineering [8.5 CGPA] (2017-2021)

EXPERIENCE

Senior Software Engineer

2022 - Present

Capgemini

Bengaluru, India

- Spearheaded the optimization of AdobeForms through advanced coding in ABAP and JavaScript, resulting in a 40% reduction in form processing time and enhanced user experience for over 500 users per month.
- Streamlined project management processes by integrating agile methodologies, resulting in the successful delivery of 5+ projects within tight deadlines and increasing efficiency by 25% across three departments.
- Designed and implemented innovative features in a collaborative environment with cross-functional teams, leading to a 25% increase in user retention rates and a substantial enhancement in overall customer satisfaction metrics.
- Executed comprehensive peer reviews on coding standards which led directly towards achieving higher compliance rates above industry benchmarks after completing more than twenty review cycles.

Software Engineer

2021 – 2022

Capgemini

Bengaluru, India

- Awarded 'Rising Star' achievement for exceptional performance in the first year of employment.
- Refined code performance by 20-30% across multiple technologies, contributing to overall system optimization.
- Mastered the company's ecosystem by rapidly learning and implementing three internal tools and processes, resulting in a 40% increase in personal productivity within the first month of employment.

PROJECTS

Interaction Centre Components. Engineered responsive web components for Interaction Centre using JavaScript and Tailwind CSS; optimized integration with backend services, achieving streamlined functionality that decreased page rendering time by an estimated 25%.

Personal Blog Tool. Engineered a personal blog application using React, Redux, and Tailwind CSS, achieving a user-friendly interface that improved user engagement metrics by 40% and increased repeat visits by 25% within the first month.

Recipe finder web application. Launched a recipe finder application leveraging FreeMeal API, React, and Tailwind CSS; revamped user engagement by incorporating a favourites feature, resulting in increased user retention by 30% within three months.

EXTRA-CURRICULAR ACTIVITIES

- Launched a full-stack development project that simulated real-time data processing; designed and executed performance tests which processed over 100k records in under 10 seconds, showcasing an advanced understanding of efficient algorithms.
- Joined 20+ tech seminars, culminating in the acquisition of actionable insights that improved team collaboration and project outcomes, resulting in a 15% increase in successful project completions.

SKILLS

Technical Skills

- Proficient in HTML, CSS, JavaScript, ReactJS and Tailwind CSS.
- Experienced in Node.js, MySQL, MongoDB, Redux, Git and AWS.

Languages

- Fluent in English, Hindi and Kannada.

Soft Skills: Communication, Leadership, Collaboration and Teamwork and Ownership.
